Magnates of Game From All Sections of Country in New York to Extend Glad Hand to Heroes.

ALSO TO FRAME UP SOME
MEDICINE FOR FEDERALS

Gilmore Said to Have Wires Laid to Catch Brilliant Line of Birds From the Returning Flock.

(By Leased Wire to Evening Herald.) New York, March 5.—Baseball men from all parts of the country are arriving in New York today to welcome the world touring Giants and White Sox tomorrow and incidentally to discuss the invasion of the Federal league.

The chief organizers of the so-called outlaws are planning to make their presence felt. This time President Gilmore and several managers and owners of Federal league teams are said to have their eyes on some of the returning tourists. President Gilmore, James Crawford and Spunkie from the Brooklyn team, while Manager Brown of the St. Louis Federals will try to sign Lee Magee and Ivy Wingo. Doolin is another player the Federals are after.

M. H. Sexton, president of the National association of Minor League baseball clubs; John H. Farrell, secretary of the same organization; President Barrow of the International league, and other leaders in minor league circles are already here and others are expected to arrive today. Ban Johnson, president of the American league, and President Tenor of the National league, will be here at the welcome banquet to the world tourists Saturday night.

Bowling Match Tonight. The Santa Fe bowlers will meet the Drummers in the city handicap league tonight.

HARRY RIEDE WILL
GO INTO RING
WITH A BEAR

Provided the grizzly doesn't back out, Harry Riede will wrestle a bear at the New Mexico A. C. this afternoon as part of his training for the fight with Jack Torres March 9. Riede is ready for bear, and the only question is whether the bear will be on hand.

Riede boxed hard and fast with Harry Schaefer at the club gymnasium last night. A large crowd of fans were on hand to witness the training session. They saw Riede put in a strenuous hour.

Torres trained yesterday afternoon at the club. He is devoting a good deal of attention to the scientific aspect of the game. That is, he goes in for boxing more than Riede. In his workout yesterday he took on Lefty Floyd, Young Ad Wolgast and John Stewart.

All the fans who have seen both boys work agree that the bout next Monday night should be a rattling one from the top of the game. Both boys are in earnest and both of them should be in shape to put up as pretty an exhibition as Albuquerque fans have had a chance to see in many a moon.

TEN THOUSAND BLACK
BASS FOR LOCAL
GUN CLUB LAKE

The Rio Grande Gun club lakes are to be stocked with 10,000 black bass. The young fish will be furnished by the government.

In addition to the stocking of the lakes the directors of the club have decided to improve the organization's 120-acre tract. Ten acres are to be devoted to an orchard.

WILLARD LOOKING
FOR SHORT BOUTS

On his way from Los Angeles to Philadelphia, Jess Willard, the heavy-weight scrapper, stopped here for a short time last night. He was a passenger on the California limited. Willard said he expected to put in his time on six and ten-round bouts in the east until July. He is scheduled to meet Dan Daley in Philadelphia on March 17.

Nine Thousand Dollars Worth of Bullion Piled up on Street Attracts Little Attention from Home People

BUSIEST TOWN IN THE
WHOLE SOUTHWEST

(Herald Staff Correspondence.) Silver City, N. M., March 4.—One of the first things that attracted my attention in walking up the main street of Silver City this morning was a pile of eight or ten thousand dollars worth of bullion looking like bricks, stacked one upon the other. At first I took them for ordinary building blocks, but as the sunlight happened to strike them right, a flash showed a glint of metal and an inscription. I read: "No. 421—Weight 1255 Oz. From Socorro M. & M. Co. to U. S. Assay Office, New York City."

"What is that?" I asked of a passerby. He looked at me a minute as if he thought me a little light in the head. Then seeing me up as a plain tourist he told me it was "nothing but a little silver bullion." I discovered on a little further investigation that his "nothing but a little bullion" was silver running high in gold and that the little pile of bricks was worth somewhere in the neighborhood of \$9,700.

It is a common sight in Silver City to see the bullion from the great Mogollon mines, eighty miles north in Socorro county, stacked out on the sidewalk. The home people pay no attention to it at all. It has become common. But it is interesting to a tenderfoot who isn't used to seeing real money lying around loose. This particular shipment was from the Socorro Mining and Milling company's mines at Mogollon, one of several great companies that are working the marvellously rich ore deposits of the district.

Three miles in the Mogollon district, the Ernestine, the Socorro and the Deadwood, have their own mills and employ at least 1,000 men in and around the properties. The bars which attracted my attention represent the product of low grade ore only. The concentrates are treated in El Paso. You see here every day big auto trucks and ten-mile teams with wagons that carry half a carload of supplies over the eighty miles to Mogollon. Huge oil tanks also are going out every day carrying fuel oil to the mill.

It was all a surprise to me; this hustling little city in the southwestern hills. Few people in New Mexico realize the activity here and how busy and prosperous this town really is. In its way it is a wonder. Rooms in every hotel are filled every day and I am told they had to quit advertising the city because there were no more houses and rooms for rent or sale.

And the climate—believe me, it is perfect. About this time we are due for wind storms everywhere else in New Mexico. But protected Silver City has nothing of that sort. It is just a perfect springtime all the time.

Silver City is the center of mining activity in New Mexico at present and the operations hereabouts are upon an enormous scale; a scale not realized or understood at all throughout the southwest. But Silver City, content for many years to keep her prosperity to herself, is engaged in telling about it just now and with remarkable results.

MORTUARY

Stanley D. Reynolds, died yesterday afternoon at his home in the Highlands after a residence of two years in Albuquerque, aged 22 years. Deceased came here from Pontiac, Mich., for his health. The remains were sent to Pontiac this afternoon by Undertaker C. T. French, there being no funeral service here.

B. L. Joseph, forty years of age, died last night at his home in Albuquerque, following a three months' residence in Albuquerque. He is survived by his mother, a daughter and two sisters. The funeral will take place tomorrow afternoon at 2 o'clock from the A. M. E. church, Rev. D. R. Jones officiating. Interment will be in Fairview cemetery.

Miss Mary E. Amermon, twenty years of age, died last night in her home in Albuquerque after a brief residence in Albuquerque. Deceased came here from Mackinac, Illinois for her health, accompanied by her mother, who was with her at the end. The father will arrive tonight and the remains will be sent to Mackinac for interment, following the funeral service which will take place at 10 o'clock tomorrow morning in the Strong chapel.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 1013 Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

PYTHIANS PREPARE
FOR A GREAT
CELEBRATION
NEXT WEEK

F. H. Wheaton, Grand Keeper of Records and Seals to Officiate at Initiation of Hundred Candidates

NEARLY EVERY LODGE
IN STATE REPRESENTED

Santa Fe Makes Special Rate for Gathering Here on March 10-11. Sanitarium Matter to be Presented.

Hardly through with the successful celebration of their Golden Jubilee, members of Miners lodge No. 4, Knights of Pythias, are preparing for another important celebration next week, when F. H. Wheaton, of Minneapolis, grand keeper of records and seals of the national order, will be here March 10 and 11 to officiate at the initiation into the order of more than 100 candidates, gathered from almost every lodge jurisdiction in the state.

Mr. Wheaton brings with him for use in this initiation, the original Bible used in the ceremonies surrounding the founding of the fraternity in Washington fifty years ago and the class to take the work here will be known as the Bible class. Among Pythians, being a member of a Bible class, constitutes an unusual distinction.

The Santa Fe railroad has made a special rate of a fare and a third for the round trip from all points in New Mexico for this occasion and the candidates it is expected, will be accompanied by a large number of members of the order from other lodges, anxious to participate in the initiation ceremonies, in which Mr. Wheaton will be assisted by the state grand lodge officers.

Will Speak at Schools. Before becoming one of the chief officers of the Pythian fraternity, Mr. Wheaton was prominent in national educational work and also as a speaker on educational topics and arrangements are being made by the reception committee to have him address the students of the University and also of the high school while here.

Sanitarium to be Presented. Another matter of first importance in which business men generally will join with the Pythians, will be the presenting of Albuquerque's claims as the proper location for the Pythian sanitarium for tuberculosis, which has been authorized by the national order but not yet located. Mr. Wheaton as one of the most influential members of the order will be taken through the valley for a thorough inspection of local conditions and it is understood that the Commercial Club is prepared to offer other material inducements for the location of the institution in this city.

EAT LESS MEAT
IF BACK HURTS

Take a glass of Salts to flush kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates; thus ending bladder disorders.

Jad Salts can not injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

MISSOURI BOYS
DOING NICELY

Several Weeks Before Luckless Smugglers Patients Will Be Released.

It will be several weeks before Ernest Hudson, Ray Miller and V. C. Kleins, the smugglers victims separated from the rest of the Missouri College class when it reached here on a Santa Fe train last week, are discharged from the city detention hospital.

Their cases are extremely light and they are in no danger, but light as the cases are they are sure enough smutpox and the authorities can not risk a spread by freeing the students before the disease has run its full course.

JOE MACKAY GOES
TO SANTA FE FOR
SAFE KEEPING

Sheriff Kendall of Sierra County Taking No Chances on Another Escape by Resourceful Bandit.

PINO BROTHERS GO UP
FOR STEALING HORSES

Sheriff William C. Kendall of Sierra county was in the city this morning between trains in charge of a string of prisoners who will be placed in the state prison at Santa Fe today.

At the head of the bunch, with a nice new pair of handcuffs on, is Joe Mackay, the resourceful bandit who for four years past has been leading a merry chase. Mackay has not been tried, but is being taken to Santa Fe for safekeeping. Sheriff Kendall says he does not care to take chances with the man at Hillsboro.

Four years ago Mackay headed a band of horse thieves which operated extensively and with complete success in southwestern New Mexico. Their specialty was running horses over the line into Mexico and for a time they did a land office business. Then Mackay was caught. It took him three days to find a way out of the Hillsboro jail, but he did it and made good his escape. He went into Mexico and Arizona and all trace of him was lost. A short time ago he returned to the state and was seen around Silver City. There Sheriff McGrath of Grand county arrested him. But Mackay is clever and convinced the Grand county officer that he had the wrong man. Mackay then went to his old home near Lake Valley and there Sheriff Kendall got on his trail. The bandit was surrounded by a posse near Hillsboro. But using an old Mexican as a shield, he ran through the cordon of officers and made his escape. He was caught two days later near Cook's peak by a posse headed by the Sierra county sheriff, who took him without a fight although Mackay had said he would not be captured alive.

After being put in the Hillsboro jail Mackay immediately made what promised to be a successful break for liberty. Sheriff Kendall then put a special guard over him until the opportunity came to take him to Santa Fe. He will be tried at the next term of Sierra county court.

Mackay is a man of some education. He talked in jovial strain this morning at the station, being especially caustic in his comments on his fellow prisoners. He declined to discuss his own case, but gently referred to all newspapers, especially those of El Paso, in anything but flattering terms. Mackay thinks newspapers are a menace to civilization and the rights of citizenship. Of one man going to prison for wife beating, he said he was being punished for a perfectly natural exercise of his rights as a husband and head of a family. Of another he thought he was being punished for a somewhat too smooth negotiation of property in which another had rights.

Sheriff Kendall's other prisoners are the Pino brothers, who will serve several years for stealing horses, and Joe Barola, a cripple and partial paralytic, who will serve a year for beating his wife.

Sheriff Kendall will return to Albuquerque tonight.

INDIGESTION, GAS OR
SICK, SOUR STOMACH

Time It—"Pape's Diapensin" makes your upset, bloated stomach feel fine in five minutes.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just that—makes Pape's Diapensin the largest-selling stomach regulator in the world. If what you eat ferrets into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapensin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvellous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapensin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

MINISTERIAL ALLIANCE
OF ALBUQUERQUE
ELECTS OFFICERS

The Ministerial Alliance of Albuquerque held its annual business meeting this morning in the pastor's study of the Central Avenue Methodist church, when officers for the ensuing year were chosen as follows:

President, Rev. C. O. Beckman, pastor of the Lead Avenue Methodist church. Vice president, Rev. H. M. P. Williams, pastor of the Gold and Broadway churches. Secretary and treasurer, Rev. Archie Tootle, pastor of the Congregational church. The retiring officers are: Rev. S. E. Allison, president, and Rev. C. A. Foreman, secretary and treasurer.

UNPRECEDENT
SPRING FLOW
IN NORTH

Engineers Say Volume of Water in San Juan River Exceeds All Previous Records—Heavy Snow in Taos.

(By Leased Wire to Evening Herald.) Santa Fe, N. M., March 5.—John E. Powell, government stream gager arrived in Santa Fe this morning from northern New Mexico where he has been for several days estimating the snowfall of the past winter, remaining on the ground, with a view to spring irrigation water. He says that the snowfall in the Taos district of the Rio Grande watershed is the greatest for many years. Snow is now on the ground to a depth of four feet on the level, he says, in many places, and in the drifts and higher mountains an enormous supply of irrigation water is stored.

R. S. Watrous returned with Mr. Powell, the latter coming from San Juan county. He reports that the flow of water in the San Juan river is now 11,600 second feet, the largest non-flood period flow on record in that stream. All of which gives official confirmation to the fact that New Mexico, especially the Rio Grande and San Juan valleys are to have abundant irrigation water this summer.

UNIVERSITY WILL
GIVE BACKING
TO DEBATORS

Students to Turn Out in a Body for Annual Contest With Agricultural College Saturday Night.

At an enthusiastic meeting of the student body of the University this morning it was determined that the entire enrollment of the University

will attend the annual debating contest between the University and the Agricultural college in the First Presbyterian church Saturday night. In a body. While the visitors, as a matter of course, are to be treated with every courtesy, the home students are determined to do everything they can to cheer the home team, and if possible to enthrone the orators so that they will by very force of enthusiasm overcome the defeat of last year.

The Agricultural college debating team will arrive tomorrow evening at 6 o'clock and at the meeting this morning a reception committee was appointed to meet them and see to their proper entertainment while in the city.

The debating contest Saturday night will be free to the public and everyone is invited to attend.

Professor Bonnett, in charge of the University team, says that the subject, "The Minimum Wage" is not only interesting of itself, but that the debaters in his team will produce some ideas and arguments in course of the debate which are absolutely new.

Goes further than green tea—and more refreshing, too.
